

FINFIO OY in brief

Background:

FINFIO is based on its experts' know-how, as well as a network of its partners. It delivers cost-effective project management, IT and digitalization services for logistics companies like Airlines, for Cleantech companies and for Fire and Rescue Departments. Especially it specializes in Flight and Freight Logistic Information Operations. The company was founded in July 2013. Its founders have worked for airlines (Finnair, SAS), banks (Central Bank of Finland, Nordea, Danske Bank, OP-Pohjola) and Telco companies (Magyar Telekom, TDC, TIGO, HPY).
